

15<sup>th</sup> March – 27<sup>th</sup> March 2014

Training at OMAN FLOUR MILLS in Muscat, Oman

**Summary:**

Oman Flour Mills, well known in the region for its feed brand “BARAKAT”, gave their production staff the opportunity to participate on a hands-on training in mixing and pelleting. In two smaller groups the mentioned sections were inspected and optimized in order to improve the plant availability and productivity. In the meantime the professional expertise of the attendees has been further developed, by teaching them how to apply state of the art process technology and operate their plant equipment in a most efficient way. Feed Mill Manager Mohammed Al Shidhani (very left hand side), stands for the organisation of the training.
