

6th October – 16th October 2014
Feed Milling Technology

After 2010 and 2011, the third official SFT-short course took place in South Africa.

Thanks to a close cooperation with the South African Animal Feed Association “AFMA” another two week short course has been conducted at Avianto, Muldersdrift. A total of 21 Professionals from 9 different South African and Intercontinental Feed Manufacturing Companies attended the educational event with great interest. Besides “Machines and Process Technology for the Feed Industry” a short introduction in to “Animal Nutrition” and “Feed Science”, lectured by South African Experts, was for the first time part of the course program.
