

2nd March – 6th March 2015
Feed Technology Seminars in Joinville, Brazil

1st group
2nd – 4th March 2015

2nd group
4th – 6th March 2015

Summary:

With the aim to minimize the absence from their working place and not having classes of more than 20 participants, two 2 ½ days seminars in Feed Milling Technology have been conducted for the Brazilian Feed Industry. Roughly 40 Executives and Professionals from more than 15 different Feed Manufacturing Companies and Additive Suppliers took the opportunity to extend and strengthen their knowledge in state of the art process technology. The fully booked seminars were organized in close cooperation with Buhler SA, South America under the lead of Henrique Oliveira of Buhler Joinville.
