

23th November – 27th November 2015

Feed Milling Technology at the African Milling School in Nairobi, Kenya

Summary:

The African Milling School (AMS) inaugurated in February 2015, offers primarily comprehensive and intensive training in the grain milling industry with focus on theoretical and practical aspects. In close cooperation with the AMS-Team the 1st First Feed Milling Technology Course “Introduction into core processes” could be implemented and performed successfully. 19 professionals mainly Plant and Production Managers as well as Process Engineers and Nutritionists, from 12 different Feed Manufacturing Companies spread across countries like Kenya, Nigeria, Swaziland, Tanzania and United Arab Emirates signed in for the course.
